

Short Course in Psychosynthesis Coaching – Dublin 18-19 June 2022

This course offers a practical and experiential introduction to psychosynthesis coaching, drawing upon **Aubyn Howard's** book, *Psychosynthesis Leadership Coaching: A Psychology of Being for a Time of Crisis* (2020). It builds upon whatever previous experience you bring shows you how psychosynthesis can inform the coaching context, relationship, process and skills.

*“Certainly to be most effective coaches do need to go beyond the basic skill level of asking questions to raise awareness and responsibility, listening well, running the coachee’s agenda and following the GROW sequence. There is much more to coaching than that and this takes us into the next evolution of psychology... Psychosynthesis offers a number of maps and models, the strands of which weave a very useful cradle for in-depth coaching.” Sir John Whitmore (from **Coaching for Performance**, 4th Edition, 2009)*
